

# screening accessories accessories

## Polyurethane deflectors

Our Deflectors are made in anti-abrasion polyurethane. They are used to send water and sand on perforated areas of the screen.

## Water trap

Special cuts on the screen sides to catch the water running into the fixation hooks.

## Tension plates

Lateral or Central for **every type of machines**. Made of steel with possibility of **polyurethane cover** for extreme protection.

## Rubber protections

Blocks with heat moulded rubber on steel plate with fixing hole.

Dimension 300 x 300 mm, or any other, on request.

## Anti-clogging balls

For Anti-clogging baskets equipment.

## Anti-clogging rope

Antiabrasion polyurethane rope. Works with screen vibration. Hits of the rope avoid clogging of the screen cloth.

## Frame protection

Anti-abrasion moulded polyurethane. Fixing with bolts on every kind of screen frame. Avoid unexpected wear of your screening machine.

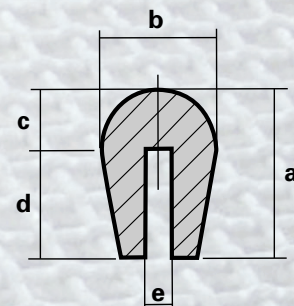

# screening accessories accessories

## Rubber Liner

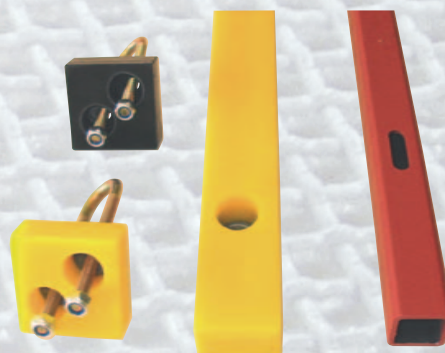

Anti-abrasion Rubber Liner to allow flexible connection between the screen cloth and the screen frame (25 meters rolls).
